PROFESSIONAL SUMMARY

Currently a 2nd-year B.Tech student at Kalinga Institute of Industrial Technology (KIIT) who has already mastered most core full-stack development concepts. Skilled in building scalable web applications using modern technologies. Enthusiastic about Data Structures & Algorithms and applying clean code principles to real-world problems.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python
Frontend: HTML, CSS, React
Backend: Node.js, Express
Database: SQL, MongoDB
Tools/Concepts: Git, REST APIs, Authentication

PROJECTS

Smart Food Stall System *React, Node.js, MongoDB, QR Code API*

- Developed a QR-based loyalty and ordering system for food stalls to streamline operations.
- Implemented real-time order tracking with a responsive dashboard for stall owners.
- Integrated a loyalty point system that improved customer retention and engagement.

Full Stack E-Commerce Website *React, Node.js, Express, MongoDB*

- Built a complete e-commerce platform featuring product listings, shopping cart, and user authentication.
- Implemented JWT-based login, protected routes, and a secure admin dashboard for product management.
- Designed a responsive UI adhering to clean UX principles, ensuring seamless navigation across devices.

REST API with Authentication *Node.js, Express, MongoDB, JWT*

- Built a secure RESTful API supporting user registration, login, and token-based authentication.
- Implemented custom middleware for route protection and granular role-based access control.
- Followed strict REST conventions and maintained a modular code structure for scalability.

DSA / PROBLEM SOLVING

- Actively solving algorithmic problems on platforms like LeetCode and CodeChef.
- Solved 150+ problems covering arrays, strings, recursion, and dynamic programming.

EDUCATION

B.Tech in Computer Science & Engineering (Pursuing) [Year]

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar | 2nd Year Student

ADDITIONAL & ACHIEVEMENTS

- Quick learner who independently built multiple full-stack projects outside of coursework.
- Demonstrated strong grasp of both frontend and backend development paradigms.
- Consistent problem solver with a focus on writing clean, readable, and maintainable code.
